

## 2025 Basic Allowance for Housing Component Breakdown

Data is collected annually for 299 military housing areas (MHAs) in the United States, including Alaska and Hawaii. The 2025 Basic Allowance for Housing (BAH) rates are based on the current local median market rent and average household utilities (including electricity, heat, and water/sewer) in each MHA, and incorporate a five percent member cost sharing (out-of-pocket amount). Collectively, these components establish the total housing costs for six housing profiles (based on dwelling type and number of bedrooms) in each MHA. Total housing costs are used to set the BAH rates for Uniformed Service members, both with and without dependents, for each pay grade.

This document shows the average percentage that rent and utilities make of the total housing cost in each MHA. The use of an average does not guarantee each percentage displayed is representative of every member, but is the average for the location. A member's actual percentage may be above or below the average percentage listed for each component in a MHA. For more information on BAH, visit https://www.travel.dod.mil/Allowances/Basic-Allowance-for-Housing. Service members can calculate their BAH payment by using the BAH calculator at: <a href="http://www.defensetravel.dod.mil/site/bahCalc.cfm">http://www.defensetravel.dod.mil/site/bahCalc.cfm</a>.

	2025 BAH Component Breakdown (Rounded to the nearest 1 percent)	Rent (Avg. % of total BAH	Utilities (Avg. % of total BAH
